GOALS OF CARE CONVERSATIONS AND WHAT MATTERS TO YOUR PATIENT

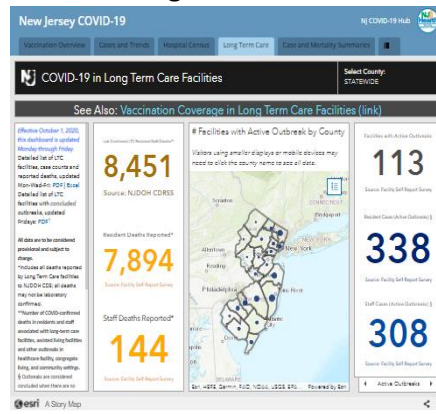

Discussing goals of care and advance care planning can be a challenge. Atlantic Health System presents this instructional video for health care providers, which covers how to start a conversation about goals of care, strategies for engaging with patients and their loved ones, and how best to manage other care considerations.

??

Jaelyn Vallier
Care Coordination, Atlantic Health System

“Palliative care is a service to help assist patients and their families in forming goals of care and improving quality of life. They are there to help make the patient comfortable, and assist with any emotional, mental and spiritual needs.”
